

# New Kirn Primary School

## Newsletter - Issue No. 3 February 2017

### Introduction

Welcome to the third of our quarterly newsletters.

Despite the recent poor weather, the steel frame is now complete, as well as the upper floor slabs construction, with the roof works progressing well.

Works on the external walls will be starting shortly, allowing progress on the internal works to get underway.

This month the web page has gone `live` and a camera has been set up on site to record the construction progress - more information on these over the page.

We will continue to put measures in place to minimise any disruption as the project progresses.

If you would like any further information then please contact Garry Davidson, the Site Manager: Mob: 07718516635, Email: [garry.davidson@morrisonconstruction.co.uk](mailto:garry.davidson@morrisonconstruction.co.uk)

Kirn Primary Pupil art winners

Kirn Primary Early Years Gardeners

### School visits

Kirn Primary School pupils were asked to paint pictures of how they would like their new school to look. The winning pictures were made into hard backed prints and mounted on to the site hoarding.

The Early Years children removed the summer bedding plants and planted spring bulbs in our notice board planter. They are now beginning to sprout and we should have some nice spring colours emerging on site in the next month or so.

## Working together

The construction industry has a huge impact on all our lives.

Morrison Construction are associate members of the Considerate Constructors Scheme and abide by the Code of Considerate Practice.

This is designed to encourage best practice beyond just the statutory requirements. Our projects are regularly monitored and assessed.

The new Kirn school project recently received an excellent rating and is one of our top scoring projects.

Ongoing concrete and steel works

## Three month look ahead

- Completion of roof
- External walls progressing
- Glazing works
- Lower ground floor slab works
- Starting internal works

## Project web page

The new Kirn Primary School project web page is now 'live' at [www.kpsproject.co.uk](http://www.kpsproject.co.uk)

Here you can find project updates, see progress photos, find out about the site team's community and school engagement activities, meet the team and much more.

## Construction footage and learning about the industry

A time frame camera has been set up and on completion of the new school a DVD will be submitted to the school. The DVD will highlight the construction works and show the project developing.

Primary and secondary school pupils along with college students will be given the opportunity to visit the site as works progress highlighting the different trades and interfaces required during construction.

**Look out for the next newsletter in May.**
